**Invitation to the “International Symposium 2020” Inflammation Medicine –From Bench to Bedside”
DFG Cluster of Excellence “Precision Medicine in Chronic Inflammation” (EXC 2167)**

Dear colleagues, dear Sir or Madam,

We cordially invite you to join the International Symposium of the Cluster of Excellence "Precision Medicine in Chronic Inflammation" which will be held under the title "Inflammation Medicine –From Bench to Bedside" **on February 17/18, 2020 in Hamburg, Germany** at the Radisson Blu Hotel, City Dammtor.

We are aiming to bring together a group of the world's leading scientists in the field of inflammation diseases and precision medicine. In focused plenary sessions and parallel workshops, we will try to discuss hypothetical solutions in a series of scientific fields that have received recent attention through the progress made in inflammation medicine. We expect about 300 participants mainly from academia, from young scientists to established investigators.

Please find attached our **conference flyer** containing the confirmed outstanding keynote speakers and the provisional program that shows you the context of other planned scientific activities as well as all relevant information regarding the venue, registration and abstract submission for poster exhibition. In an extended Poster Session there will be the opportunity for young scientists to present and discuss their own research (best posters will be awarded). Please find more information here: precisionmedicine.de/symposium-2020/

The main sponsor is the DFG Cluster of Excellence, which has received funding from the German Research Foundation (DFG) for the third time.

We appreciate your support in forwarding this announcement to interested members of your department.

We look forward to welcome you in Hamburg.

Yours faithfully
